

# MAGNET WIRE CONNECTIONS

## FAST. CLEAN. FLEXIBLE.

High-quality, cost-efficient terminating solutions for motor, coil, and solenoid applications.

### RELIABLE

Provides **more repeatable** and **higher quality** connections than soldering

### CLEAN

**Zero chemicals, heat or soldering** produce connections free of thermal damage and fumes

### COST-EFFICIENT

**Up to 10% annual cost savings\*** through reduced labor costs, and increased throughput

### FLEXIBLE

Connect both **copper and aluminum magnet wire** and **lead wire** with stable, gas-tight terminations

### VIRTUAL SAMPLE KIT

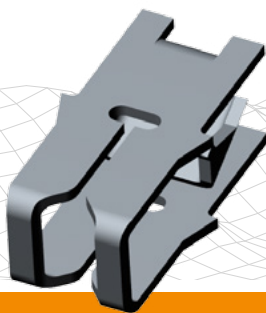

See our broad offering of terminals and connectors for magnet wire terminations.

\*Approximate savings average between 5% and 8%.

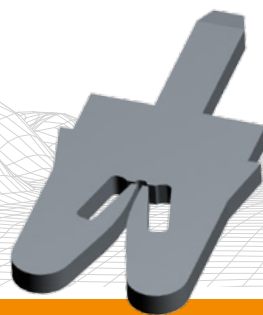

## TERMINALS

No need to pre-strip or weld/solder.

### MAG-MATE

IDC slots with up to 4 contact points

### SIAMEZE

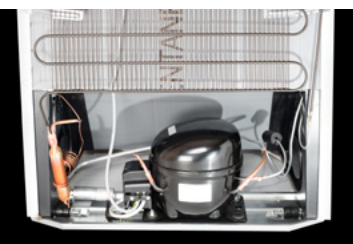

Moving beam design with 2 contact points

### AMPLIVAR

3 magnet wires plus lead in the same crimp
